had almost a cheap?" saked the Enquirer's representative to fay of an efficial of the Indianapolis Rolling-Mill Company. "Breame," said he, "too raits do not break, while steel rails do, and fewer suits for damages are entered by injured passengers as a consequence. Another chief reason is that there is a much greater loss on old steel rails than one old from. Steel cannot be rerolled for raits; it must be made into wire if used, while iron rails are rerolled, and a great saving is thus effected."

ROYAL MAIL LINE sire to antagonize the authorities on the question of quarantine, and is always willing to do whatever is right and necessary to aid in preserving the good health of the city, and especially in the effort to prevent the introduction of contagious diseases.

> 50Years. I have known and watched the use of Swift's Specific for over fifty years, and have never known or heard of a failure to cure Blood Poison when properly taken. I used it on my servants from 1850 to 1865, as did also a number of my neighbors, and in every case that came within my snowledge it effected a cure. In all my life I have never known a remedy that would so fully accomplish what it is recommended to do.
>
> H. L. DENNARD, Perry, Ga.

I have known and used Swift's Specific for more than twenty years, and have seen more wonderful results from its use than from any remedy in or out of the Pharmacoperia. It is a certain and safe amidote to all sorts of Blood Poison.
